Ahmedabad, India (Open to Relocate)

SUMMARY

Front-end Engineer with **2.5+ years** of experience in building **scalable web applications** using **React**, **Next.js**, and modern front-end tools. Skilled in **state management** (Redux), **API integration**, and **performance optimization**. Delivered responsive, maintainable UIs across multiple full-cycle projects. Passionate about clean code, user-focused design, and staying updated with emerging technologies.

SKILLS

Languages: HTML, CSS, SCSS,Javascript, Typescript.

Frameworks/Libraries: React.js, Next.js(v13+), Redux Toolkit, Bootstrap, Tailwind CSS.

State Management: Redux, Redux Thunk, Context API.

API Handling: REST APIs, GraphQL, Axios, Fetch.

Tools: Azure, Git, VS Code, Cursor IDE, Webpack, Lighthouse, SonarQube, Lighthouse, Postman, Jest.

Operating Systems: Ubuntu, Windows.

EDUCATION

Master of computer Applications (MCA), Nagarjuna University   *12/2020 - 06/2022*

EXPERIENCE

Software Developer   *09/2024 - Present*

Glasier Inc   *Ahmedabad, INDIA*

- Led development of **scalable web applications** using **React** and **Next.js**, boosting performance by **30%** through **lazy loading**, **code splitting**, and **optimized bundling**.
- Specialized in latest Next.js features including **server-side rendering (SSR)**, **nested routing**, and **secure authentication** with NextAuth.js.
- Created **reusable UI components** and **responsive layouts** using **Tailwind CSS** and **SCSS**.
- Collaborated across teams to ensure efficient backend integration and **pixel-perfect UI** delivery.

Frontend Engineer   *01/2023 - 08/2024*

Brainvire Infotech Inc   *Ahmedabad, INDIA*

- Developed scalable applications with **React**, **Redux Toolkit**, and **TypeScript**, following best practices in **State management** and unidirectional data flow.
- Enhanced **code quality** and stability using **TypeScript's type safety**, **ESLint**, and **SonarQube** analysis.
- Improved accessibility and performance by 15% using **Webpack optimization** and **Lighthouse** auditing.
- Led frontend **debugging** and **profiling** efforts using **Chrome DevTools** and provided ongoing support for UI/UX refinement.

MERN Stack Intern   *07/2022 - 12/2022*

Nxtwave Disruptive Technologies   *Hyderabad, INDIA*

- Built and deployed frontend interfaces using **HTML**, **JavaScript**, and **Bootstrap** as part of full-stack learning modules.
- Gained **certification** in **Python**, **SQL**, **JavaScript**, **HTML**, and **CSS**.
- Contributed to **full-stack development** with a focus on **UI implementation** and **REST API** integration.

PROJECTS

Get Yolo Admin Panel – *React v18, Redux, REST API .*

- Developed a **centralized education portal** to manage academic, administrative, and hostel operations with **role-based** access.
- Implemented **dynamic dashboards** for Admins, Faculty, Students, and Staff.
- Created interactive UI modules for **batch setup**, **student registration**, **fee management**, and **announcements**.
- Built modular notification and **multi-phase registration** systems.

Hi.EV EV Charging Platform – *React v18, Redux, REST API.*

- Built a smart **EV charging system** with **station search**, **vehicle registration**, **wallet payments**, and **live charging updates**.
- Developed **role-based interfaces** for Users, Engineers, Auditors, and Admins with QR-based workflows.
- Integrated real-time charging APIs and **secure authentication** flows.

Valet Parking Service – *React v18, Redux, REST API.*

- Developed a smart **valet parking system** with **role-based access** for Admins, Managers, Drivers, and Car Owners.
- Built a responsive web portal for **vehicle check-in/out**, **live tracking**, and **driver assignment** management.
- Integrated a mobile app for valet drivers to **manage tasks**, **scan QR codes**, and **update vehicle statuses** in real time.
- Enabled customers to **scan QR codes to track vehicle status**, request returns, and select add-on valet services.

OcuSoft Website – *Next v13, React v18, Redux, Typescript, REST API.*

- Built a **responsive e-commerce platform** for ophthalmic and skincare products with optimized product discovery and payments.
- Implemented API integration, dynamic table components with pagination, filtering, and sorting.
- Ensured **performance optimization** and full mobile responsiveness.

Whimarketing Website – *Next v13, React v18, Redux, Typescript, GraphQl.*

- Developed a **subscription-based streaming platform** with user-specific plan selection and secure payments.
- Integrated **GraphQL APIs** and built dynamic forms with validation and role-based access control.
- Created responsive UI components, advanced table views, and real-time access logic.

E-Commerce Order Portal – *React v18, Redux, Typescript, REST API.*

- Architected the frontend flow for **role-based order placement**, ensuring **Portal Users** could place orders for customers while enforcing business rules through dynamic UI restriction.
- Developed UI controls for user/product lifecycle, permission-based toggles, and onboarding.
